WHAT IS THE EAGLE EYE SECURITY CAMERA VMS?
The Eagle Eye Security Camera VMS is a fully managed cloud video surveillance solution, delivering an end-to-end video management system that's simple to deploy and easy to use. It supports all modern browsers and works on Windows, Mac, even Linux with no plugins to install.

FULLY MOBILE
The fully functional iOS and Android applications provide complete access to live and recorded video and can also be used to install, configure and manage the system.

GOT CLOUD?
Eagle Eye Networks provides a cloud based, video management system. The Eagle Eye Bridge is installed on-site, connects to your cameras, records video locally, and then securely synchronizes both video and meta data to the Eagle Eye Cloud Data center. It is a robust, secure appliance specifically designed to overcome the demands of transmitting high-resolution video through the Internet.

COMPREHENSIVE CAMERA SUPPORT
At Eagle Eye Networks we believe that camera compatibility is important. There is no need to be locked in to a single camera vendor. Businesses need the flexibility to work with the cameras that they choose. Eagle Eye Bridges and CMVRs support ONVIF Profile S IP cameras. Eagle Eye Combo Bridges and CMVRs support IP as well as NTSC and PAL analog cameras. For an up to date list of all compatible cameras visit www.EagleEyeNetworks.com/cameras.

WORRY FREE MANAGEMENT
All of the software in the Eagle Eye Cloud and firmware on the Eagle Eye Bridge is managed and updated by Eagle Eye Networks. The hardware is fully backed by Eagle Eye with full replacement if anything ever goes wrong.

SECURITY SIMPLIFIED
With Eagle Eye Complete Privacy Encryption™, video is fully encrypted during transmission and at rest. The Eagle Eye Bridge also has no open ports to the Internet, eliminating security vulnerabilities commonly found in other systems and requiring no router or firewall adjustments.

Cloud-Based Video Surveillance

- Video encrypted in transit & at rest
- Fully cloud managed
- Intelligent Bandwidth Management with local buffering
- Full frame rate on 720p & 1080p cameras
- Optional audio recording

Web Interface & Mobile Features

- Native iOS & Android apps
- View live & recorded video
- Compatible with all modern browsers
- Motion detection with alerts
- Map & floorplan display

System Administration

- 100% browser-based - no software
- Centralized management
- Granular user permissions
- Multi site support
- Point and click video sharing
**EAGLE EYE COMBO BRIDGE 310/410**

**COMBO BRIDGE FEATURES**

**NETWORK FEATURES**
- Automatic network configuration
- Secure camera network (dual network ports)
- No inbound connections needed
- Packet loss detection/reporting
- Network disconnected alerts

**MANAGEMENT FEATURES**
- Remote management
- Automatic camera discovery
- Automatic camera configuration
- Advanced motion detection
- Local video buffering
- Configuration synced to Cloud
- Camera trouble alerts
- Internet outage alerts
- Fully cloud managed

**EAGLE EYE NETWORKS SUPPORT**
Eagle Eye believes support is paramount to our customers’ and partners’ success. Standard support is free of charge with an active subscription.

**Standard Support**
- Replacement of Bridge at no cost
- 24/7 email and web support
- 8am to 8pm ET phone support

**Concierge Support**
- Next business day cross-shipment for Bridge replacement
- Replacement of Bridges even when damage is caused by customer
- 24/7 phone, email, and web support

**EAGLE EYE BRIDGE**
- **Extensive Compatibility with IP & Analog Cameras**
- **Complete Privacy Encryption™**
- **Encryption at Rest**
- **Triple Redundancy**
- **Intelligent Bandwidth Management™**
- **Highly Scalable Infrastructure**
- **Motion Detection**
- **Local Video Buffering**
- **Comprehensive Security**
