

# The future of security management

Access control + Video surveillance

## Introducing Homebase + Eagle Eye Networks Simply smarter security

### Cameras connected instantly

Easily sync all your Eagle Eye camera information in just a few clicks.

### Link cameras to spaces

Associate security cameras with rooms to cross reference important data.

### View captured events

Play video clips or preview hi-resolution images in the Homebase activity log.

### Live feed camera dashboard

View all cameras around your community all in one place.

Homebase Pros can take over your existing surveillance equipment. See if yours is compatible.
