- Compliance by January 1, 2024

Affordable Surveillance Solution

With Eagle Eye Networks you can keep your existing security infrastructure and easily add one year of surveillance video & audio retention in the cloud.

A cloud video surveillance system from Eagle Eye means minimal upfront investment, no required on-site DVR, and flexible monthly or yearly billing options.

Why Eagle Eye Networks?

SECURE STORAGE

Encrypted video is securely stored in our global network of owned data centers.

REMOTE ACCESS

Easily access and share video from anywhere, even from your phone.

UNMATCHED FLEXIBILITY

Adjust system retention and add new cameras that fit your needs & budget, at any time.

ADVANCED FEATURES

Search video the same way you search the web for people, vehicles, and objects.

AUTOMATIC UPDATES

Cloud connection means continuous delivery of system upgrades.

CAMERA COMPATIBILITY

Use your existing cameras. Eagle Eye is compatible with thousands of makes and models.

Learn why Eagle Eye Networks is #1 in cloud video surveillance worldwide and an ideal solution to meet new state regulations and improve business operations.
