

# Eagle Eye Camera Direct Feature Sheet

Direct-to-cloud surveillance solution from Eagle Eye Networks

## Uses for Camera Direct

Locations with a small camera count.

Eagle Eye customers needing a single camera in a new location.

Resellers wanting a fast and simple installation option.

## Eagle Eye direct-to-cloud video surveillance

Eagle Eye Camera Direct connects cameras without an Eagle Eye Bridge/CMVR and is ideal for businesses requiring only a few cameras at each location. Leverage the benefits of the award-winning Eagle Eye Cloud VMS:

### Secure cloud storage

Retain encrypted video with triple cloud redundancy for secure and easy access.

#### Automatic updates

Receive continuous system updates via the cloud connection.

#### • Remote access

Access a full resolution stream of live and recorded video from anywhere in the world.

#### Cloud management

Update user access, retention, resolution of your cameras, and more at any time.

#### Artificial intelligence

Find people or vehicles immediately with cloud-based Al features like Smart Video Search and Smart Layouts.

#### • Motion detection

Configure and get motion detection events on live and recorded video.

#### Notifications

Get notifications if motion is detected or a camera goes offline.

## Flexible and Futureproof

Add Eagle Eye Camera Direct cameras to an existing Eagle Eye VMS. Camera Direct cameras can be mixed with Eagle Eye Bridge/CMVR supported cameras to expand security system coverage. Camera Direct provides a futureproof solution - If the security system grows and Bridge/CMVR is needed in the future, Camera Direct cameras can be connected to any Eagle Eye Bridge/CMVR.

## Cybersecure

Camera Direct cameras use the same Eagle Eye Complete Privacy Encryption(TM) technology implemented in the Eagle Eye Security Camera VMS to encrypt and ensure that video is private and secure. Data is encrypted at rest and during transmission.

## Supported cameras

Eagle Eye Camera Direct works with the following Eagle Eye cameras at 4 MP or less.
